

# Funding

Most postgraduate students are self-funding, but we have put together some suggestions of where to look for additional help including internal sources of funding, Research Councils and Annual bursary competitions.

For more information visit [www.pg.salford.ac.uk/page/funding](http://www.pg.salford.ac.uk/page/funding)

Please see page 6 of this brochure for details of our international scholarships and bursaries.

# Fees

**The fee for international students is £11,250 per year and courses can only be studied on a full-time basis.**

These are the fees for 2010/2011. You will need to contact us for the latest information on fees for your year of entry (there is an increase of approximately 3% per year).

	EU/UK
